## THE EASY CAMP® RANGE 2010

Welcome to the 2010 catalogue from Easy Camp® with a completely updated range of products for all types of camper – young or old.

The relaxed atmosphere of a simple life out camping promotes a friendliness that you do not often see at home. The natural feeling of saying 'good morning' to your neighbours even though they are strangers, likely from a different part of the world. Chatting over a cup of tea or glass of wine, spontaneous alfresco family lunches or just relaxing with a book with just the countryside to keep you company – is there more to ask for in life.

For 2010 we are offering a totally overhauled collection of tents, sleeping bags and rucsacs focused into 4 broad categories.

**CARNIVAL** is very much about the youth of today, intelligent and mobile. This range is light and bright, easy to use and exudes an element of fun. Perfect for anything from a weekend festival to an adventurous outing.

**EXPLORER** is for just that, getting out and being part of the outdoors; weekends away, enjoying the outdoors environment – the possibilities are endless. This collection is extensive with all products packed with feature at great value prices.

The **GO** range is a collection of quality, eye catching tents that are aimed at regular users looking for good performance with the style to match.

**TOUR** is for holiday camping, great value and enjoyment. Whether it is family camping or friends touring, this range offers a size and budget for everyone.

In addition we have created a desirable range of must-have accessories suitable for the requirements of today's campers, offering a full and comprehensive selection of products from cookware to lighting to furniture and maintaining our great value message.

**CARNIVAL** is for being young and having fun. People who have a variety of hobbies and activities from going to festivals, overnight camping with friends and ultimately enjoying the freedom of the outdoor environment. This range of products is all about being attractive, getting noticed, being easy to use and simple to understand, modern and inexpensive. Now featuring Fire Retardent and Waterproof Fabrics with fully taped seams and fast, easy pitching.

Door with mosquito net

Ventilation

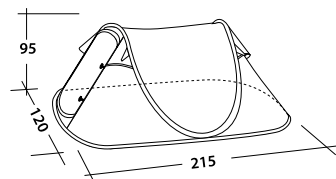

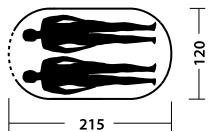

An amazing little tent for 2 people! Just unzip the carry bag, take the tent out and allow it to set itself in an instant – a dream come true – camping without the tent pitching. There is no need to connect or insert any poles; the integral pole system is designed to allow the tent to erect itself. Pegs and guylines are supplied and are advised to increase the stability of the tent in adverse conditions.

The Antic's are ideal for any occasion where you desire a fast and easy tent to pitch, available in a range of bright colours to lift the gloomiest of camp sites.

Utilising the simplicity of a dome shaped tent, with an extended tunnel storage area makes for a very versatile shelter. We offer this model in a variety of sizes as it has a variety of uses. From family camping with the larger 400 model offering head height and living room; to bike touring where all the equipment, including the bikes, can be stored in the porch; to more general camping where lots of extra room with the large porch areas is an obvious benefit. Two access door enhances the versatility with a porch groundsheet included for ground protection.

Ventilation

A new model developed by the team at Easy Camp offering all the benefits of a large tunnel tent combined with a front awning to offer protection for the entrance. The very light and bright front porch area allows for chairs and tables as well as other equipment to be in a comfortable and inviting setting, even on gloomy days. The bedrooms are large, separated by a zip divider to offer privacy. The size and features of this Boston range make it an interesting choice for families searching for a modern looking tent.

The flexibility of 3 separate bedrooms makes this range worth considering if members of the family want their own space or you wish to invite friends along on your next camping holiday. The large living area in the dome allows for best use of the space and offers maximum headroom due to the height of the poles. Hanging loops and cable entry points are sewn-in for that extra luxury of electrics in the tent (some campsites have electric hook-ups). An extended porch at the entrance allows for the extra storage space for shoes and jackets in order to keep the main living area clean and dry. Ideal for family camping.

The Easy Camp sleeping bag range has been updated with contemporary new styles and colours and continues with the broad category themes presented within the tent and rucsac ranges. Choose the correct model for the desired activity and ensure that you have a peaceful nights sleep.

**CARNIVAL** is for being young and having fun. People who have a variety of hobbies from going to festivals, overnight camping with friends, short trips throughout Europe and ultimately enjoying the freedom of the outdoor environment. This range of products are about being attractive, easy to use, simple to understand, modern and inexpensive. Soft touch shell fabrics combined with cotton-like linings and hollowfibre fill, make for a good nights sleeping.

**EXPLORER** is about getting out and seeing the world outside. Weekends near the lakes, biking in the forest parks, sleeping in the valleys. This range of products will do the job without costing the earth. Suitable for those starting out with their camping experiences. Soft touch shell fabrics combined with cotton-like linings and hollowfibre fill, make for a good nights sleeping.

**GO** is about versatility, performance and dependability. A unique looking range aimed at regular users looking for that desirable design and specification level, whilst maintaining affordability. Lightweight and compact this range offers a good sleeping solution and easy to manage pack sizes.

**TOUR** offers good features, great value and surprising performance levels for the family or group either starting out in camping or wanting a dependable yet affordable sleeping bag. The range uses a cotton-like soft touch fabric on the shell and lining combined with a warm hollowfibre fill.

Our very successful sleeping bag collection has now been fully updated with new themes, designs and colours.

### OUR SLEEPING BAG RANGE

CARNIVAL	Ideal for caravanning, camping, sleep-overs or festivals
EXPLORER	Most suited to general camping but can be used for caravanning and festivals.
GO	Comprehensive collection of compact items suitable for up to 3-season use. A good camping allrounder.
TOUR	Designed to complement our family camping range.

### SEASON RATINGS

For 2010 we have introduced season ratings for our sleeping bags to make selecting a sleeping bag easier for both retail buyers and consumers:

- 1 SEASON - For use in the Summer months only
- 2 SEASON - For use from late Spring through to early Autumn
- 3 SEASON - For use from Spring right through Autumn
- 4 SEASON - For use throughout all seasons but more suited to colder conditions

- 1. Full length zip baffle prevent heat loss around the zip
- 2. Internal pocket for personal possessions
- 3. Strap for hanging and airing of sleeping bag
- 4. Off-set construction eliminates cold spots
- 5. Anti-snag zip guard
- 6. Large thermo collar for comfort

All our sleeping bags are tested to the EN13537 standards. This test is the official European Standard for the labelling of sleeping bags. It is a complete product standard which defines how to test, measure and label a sleeping bag. The EN13537 applies to all sleeping bags with the exception of sleeping bags for military use and sleeping bags for extreme temperatures.

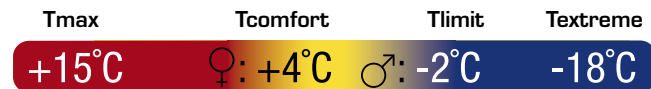

To determine temperature limits of sleeping bags objectively, the European standard EN 13537 on requirements for sleeping bags specifies the use of a computer-controlled thermal manikin similar in shape and size to the human body. A sleeping bag containing a manikin is placed inside a temperature-controlled climate chamber and tested in accordance with a prescribed procedure to determine the thermal insulation properties of the bag. Recommended temperature limits are based on the insulation properties measured and on knowledge of how the human body reacts to thermal conditions during sleep.

**Tmax:** Upper limit of comfort range. The temperature up to which a partially uncovered sleeping bag user (standard man) just does not perspire too much.

**Tcomfort:** Lower limit of the comfort range down to which a sleeping bag user with a relaxed posture such as lying on the back is globally in equilibrium and just not feeling cold (related to standard woman and in standard condition of use).

**Tlimit:** Lower limit of which a sleeping bag user with curled-up body posture is globally in thermal equilibrium and just not feeling cold (related to standard man and in standard condition of use).

**Textreme:** Lower extreme temperature where the risk of health damage from hypothermia occurs (related to standard woman and in standard conditions of use).

Just relax and enjoy.... That is the Easy Camp RELAX concept! Within this concept you will find all that is needed for an enjoyable and successful camping trip. There is folding furniture which is easy to carry and folds to a small pack size for easy storage and transport. Also, there is a more traditional and very comfortable range of camping furniture at affordable prices. The RELAX concept has cupboards, tables and kitchen tables that will enhance your camping trip by adding easy storage solutions for your holiday home.

This range has been very successful for camping enthusiasts and is available in two colours – a spring green and a light blue. This range is light to carry and folds down to a small size for convenience and of course is comfortable in use.

Whether commuting on a train, doing the school run or travelling across Europe, there is now an Easy Camp rucsac that is suitable. New models, great styles and attractive colours ensure that, whatever choice is made, it will be stylish and yet take the punishment of everyday use. For easy identification the range is positioned within the broad category themes presented within the sleeping bag and rucsac ranges.

**CARNIVAL** is for being young and having fun. People who have a variety of hobbies from going to festivals, overnight camping with friends, short trips throughout Europe and ultimately enjoying the freedom of the outdoor environment. This range of products are about being attractive, easy to use, simple to understand, modern and inexpensive.

**EXPLORER** is about getting out and seeing the world outside. Weekends near the lakes, biking in the forest parks, sleeping in the valleys. This range of products will do the job without costing the earth. Suitable for those starting out with their camping experiences.

**GO** is about versatility, performance and dependability. A range aimed at regular users looking for that desirable design and specification level, whilst maintaining affordability. Lightweight and compact this range offers a good solutions to those active packing problems.

MAZE & MIST – Bright and cheery, these daysacs are fun and attractive. Very reasonably priced and available in colours to suit your mood. Perfect for that festival or sleepover.
