# WHY CHOOSE BETWEEN COMFORT AND NATURE?

**Yes you can have holidays in the open air without giving up anything in terms of comfort!** Through constantly updating the technical and functional innovations in its range of trailer tents, Trigano makes sure that your holiday comfort is a top priority. The tents are easy and quick to set up, with spacious interiors. The shapes and colours are always changing, and they come with as many options as handy features.

Find out about the full 2018 collection here in this catalogue. More detailed information, such as videos of our products and a list of dealers in your area, can be found on our new website: [www.trigano-camping.com](http://www.trigano-camping.com)

If you want to get close to nature, whether with family or friends, or just the two of you, there is sure to be a model in our range to suit you, making for carefree and relaxing holidays. **So why not enjoy perfection on your holidays?**

**You can find out about our workshops and our trailer tent production stages in this video.**

# THE DETAILS THAT MAKE ALL THE DIFFERENCE

## × EASY TO TOW ×

Once closed, a Trigano trailer tent is the size of a standard trailer. It can be towed by most types of car, even the smallest models, offering almost no wind resistance. It is also easy to store in winter.

## × KITCHEN UNIT ×

All of our models are available with or without a kitchen unit (except TREKKY S). These units are attached at the rear of your trailer tent and offer all the space and equipment you need. They are mobile so that you can cook outside your awning when it is fine (except the fixed kitchen unit on the ALPHA model). The kitchens on the ODYSÉE and OLYMPE models can be fitted with wheels.

## × SLEEPING COMFORT ×

Sleep as if you are in your own bed! The bedrooms are made from cotton, which serves as a lining for the main canvas, and are fitted with mosquito nets and flaps. The mattresses are wide and comfortable and the slatted bases are available on most models. All of our models offer two separate rooms (except the ALPHA) and you can also add extra sleeping areas (underbed tents, annexes).

## × STORAGE SPACE ×

We know you take a lot of luggage with you on holiday. All our models are equipped with storage spaces for easy transport. And some models offer the all new EASY PACK system making access to luggage easier during stopovers.

## × FLOOR MATS ×

Acclaimed by our customers, these sheets are attached to the awnings by a zip fastener about 10 cm above the ground. They protect you from moisture and insects, and also prevent wind blowing under the awning. You can remove them and refit them whenever you want.

**Trigano trailer tents have been made in Mamers in the Sarthe for over 60 years. Camping haute couture has a name and its reputation is founded on a long-standing tradition.**

Our know how is unique in Europe and is reflected in the **quality of our products**. The sense of perfection that drives our designers is matched by the care we take in choosing which materials to use. Canvas is a key element for trailer tents. That is why, for the roofs and walls, we have selected top quality cotton that is resistant to water, tearing, humidity and the test of time. The canvas is breathable and well-ventilated. We sew our canvas ourselves by hand using knotted stitches for durability in all conditions. The trailers, also constructed in our factories in France, are indestructible.

**You can see how we control the entire production line** in order to provide trailer tents that stand up to varied weather conditions and are robust, practical and comfortable.

**YOUR HOLIDAYS DESERVE THE BEST!**

## TRIGANO'S COMMITMENT

### REDUCING OUR ENVIRONMENTAL IMPACT

WITH **TEXYLOOP**<sup>®</sup>  
A CLOSELOOP INDUSTRY

In order to implement a certified environmental approach and manage the life cycle of our products, **Trigano has joined with Taxyloop, a collection organisation, to recycle 100% of our PVC canvases**. Recycling is currently the only effective way of limiting our environmental impact and reducing the amount of waste produced. Every ton of new raw material produced by Taxyloop recycling gives a corresponding saving in resources and energy. Taxyloop is a fully operational industrial recycling process at the heart of a Europe-wide collection network.

**Taxyloop allows 100% recycling of the components of textiles and promotes the emergence of activities for reuse of materials in new applications.**

### EUROPEAN CERTIFICATION, A MARK OF TRUST

**100% of our trailer tents are certified to current European standards** and meet all the latest road safety requirements. It is therefore possible to use our trailer tents within all EU member countries.
