WHY CHOOSE BETWEEN COMFORT AND NATURE?

Yes, you can have holidays in the open air without giving up anything in terms of comfort! Through constantly updating the technical and functional innovations in its range of trailer tents, Trigano makes sure that your holiday comfort is a top priority. They are easy and quick to set up, with spacious interiors. The shapes and colours are always changing, and they come with a variety of options and handy features.

Find out about the full 2019 collection here in this catalogue. More detailed information, such as videos of our products and a list of dealers in your area, can be found on our new website: www.trigano-camping.com

Want to get close to nature? Whether with family or friends, or just the two of you, there is sure to be a model in our range that will suit you, making for carefree and relaxing holidays.

What if your holidays were to become synonymous with perfection?

DISCOVER OUR WORKSHOPS

And learn out about our trailer tent production process in this video.

Install an application on your smartphone to read QR Codes. You can then access our videos in a single click.

THE DETAILS THAT MAKE ALL THE DIFFERENCE

EASY TO TOW

Once closed, a Trigano trailer tent is the size of a standard trailer. It can be towed by most types of car, even the smallest models, offering almost no wind resistance. It is also easy to store in winter.

KITCHEN UNIT

All of our models are available with or without kitchen units. These units are attached at the rear of your trailer tent and offer all the space and equipment you need. They are mobile so that you can cook outside your awning when it is nice and sunny (except the fixed kitchen unit on the Alpha model). The Odyssée's kitchen can have castors mounted.

SLEEPING COMFORT

Sleep as if you are in your own bed! The bedrooms are made from cotton, which serves as a lining for the main canvas and are fitted with mesh flyscreens and flaps. The mattresses are wide and comfortable and the slat bases are available on most models. Our models offer two separate rooms (except the Alpha) and you can also add extra sleeping areas (under-trailer bedrooms, annexes).

STORAGE SPACE

We know you take a lot of luggage with you on holiday. All our models are equipped with storage spaces for easy transport. And some models offer the all new EASY PACK system making access to luggage easier during stopovers.

GROUNDSHEETS

Acclaimed by our customers, these sheets are attached to the awnings by a zip fastener about 10 cm above the ground. They protect you from moisture and insects, and also prevent wind blowing under the awning. You can remove them and refit them whenever you want.

YOUR HOLIDAYS DESERVE THE BEST!

Trigano trailer tents have been made in Mamers in the Sarthe for over 60 years. Haute couture camping has a name and its reputation is founded on a long-standing tradition.

Our expertise is unique in Europe and is reflected in the **quality of our products**. The sense of perfection that drives our designers is epitomised in the attention we pay in the choice of materials used. The canvas is an essential component of a trailer tent. That's why, for the roofs and walls, we have selected top quality cotton that is resistant to water, tearing, humidity and the tests of time. The canvas is breathable and well-ventilated. We sew our canvas ourselves by hand using knotted stitches for durability in all conditions. The trailers, also constructed in our factories in France, are extremely durable.

We control the entire production line in order to provide trailer tents that stand up to varied weather conditions and are robust, practical and comfortable.

TRIGANO'S COMMITMENT

REDUCING OUR
ENVIRONMENTAL IMPACT WITH

In order to implement a certified environmental approach and manage the life cycle of our products, **Trigano has joined with Texyloop, a collection organisation, to recycle 100% of our PVC canvases**. Recycling is currently the only effective way of limiting our environmental impact and reducing the amount of waste produced. Every ton of new raw material produced by Texyloop recycling gives a corresponding saving in resources and energy. Texyloop is a fully operational industrial recycling process at the heart of a Europe-wide collection network. **Texyloop enables 100% recycling of the components of textiles and promotes the emergence of activities for reusing materials in new applications.**

EUROPEAN CERTIFICATION,
A MARK OF TRUST

All our trailer tents are certified to current European standards and meet all the latest road safety requirements. It is therefore possible to use our trailer tents within all EU member countries.

GALLEON
