Campmaster Air 1000LX

2 BERTH AIR TRAILER TENTS

Campmaster Air 600LX

Your adventure starts here

Your big adventure starts here in the small and compact Campmaster Air

Designed from the start with ease of use and comfort in mind. Combining the ease and simplicity of compact inflatable tents with an ultra-compact lightweight trailer the Campmaster Air range opens up the joys of trailer tent camping.

Whether you are uncertain about towing or just looking for a small trailer to tow and store the Campmaster Air trailer tents tick both boxes.

The campmaster air trailer tents have fully sewn in groundsheets within the bedroom and awning area so no drafts and no bugs. This feature is unique to Campmaster.

The bedroom areas are made from thick and breathable cotton for your warmth and comfort. Both models have access to a changing / loo area / storage area (Loo is optional). Breathable poly cotton material comes as standard keeping you cool in warm weather.

BEDROOM & AWNING

Comfy and cosy bedroom and awning

TINY TRAILER - SMALL CAR

The Campmaster 600LX is only 179kgs unladen

SPACE SAVER

End Storage Brackets available to fit 600LX & 1000LX

SPACIOUS AWNING

With a comfy memory foam bed.

Lots of storage space and room for a loo!

MULTI PURPOSE

Although the Campmaster air models are predominately trailer tents, by removing a few bolts and removing the bed you have a fully functional luggage trailer for a multitude of uses. Both models also include a tent inner tent so the tent can be used on its own without the trailer.
